

THE GAZETTE.

TUESDAY EVENING, MARCH 30.

FISH STORY.—We said something about the unusually large number of fish which has been caught in the Rappahannock the present season, but we were not at all prepared to believe that there were as plentiful as the following statement seems to warrant. Two or three gentlemen were walking by the side of the river on Sunday last, where the wheat field of Mr. Farish runs down to the bank, when they noticed an unusual commotion in the young wheat in front of them, which, upon examination, proved to be a number of catfish which had come up out of the river, and were grazing on the wheat. We give the statement entirely upon the authority of one of the party who saw it.—*Charlottesville Jeffersonian*.

SEEDING OATS.—The frequent and continued rains of the past few weeks have seriously interfered with the farmers in seeding oats. Very few put in their seed last fall, and of late they have not had opportunity for spring sowing. The result is that the farmers are backward in this work, as they are in almost everything else. The season has been most unfavorable for field operations.—*Lynch News*.

In order to run a newspaper successfully it is only necessary to learn to do three things: Eat dried apples for breakfast, drink warm water for dinner, and swell up for supper. By that means an editor can get three square meals a day.—*Ex*.

Patient to doctors after consultation: "Tell me the worst, gentlemen; am I going to die?" Doctors: "We are divided on that question, sir; but there is a majority of one that you will live."
